WHO IS YOUR ANCESTOR?

ABOUT

Objective

Adults, youth, and children will learn about their ancestors and share what they learn in a game-like environment.

Audience

Adults, youth, and children

DESCRIPTION OF ACTIVITY

Invite each group member to bring a photo of an ancestor to the family history center. Post all the pictures, and ask everyone try to match the photo with the descendant. You may find that the activity works better if you gather and prepare the photos for display before the activity begins. While photos are being shared, encourage participants to also share stories about their ancestors.

Invite family members to scan and attach these photos to Family Tree. Participants will need an LDS Account with a valid username and password to use Family Tree.

Resources:

- Ancestor photos
- Ancestor stories (optional)
- LDS Account username and password (optional)
- Lexmark or other photo scanner connected to a family history center computer (optional)
