

# Reviewing Learning Assessments

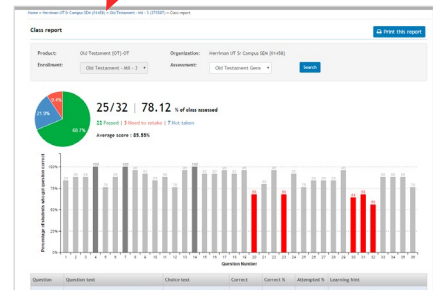

You can use the Learning Assessment system (LA) to quickly review assessment results online.

## Review

- Go to [la.ldschurch.org](http://la.ldschurch.org), sign in with your LDS Account username and password, and click on the desired program. If you don't see any classes listed, click **Switch to View Past Classes**. If needed, adjust the Year and Term.
- On the list of classes, click the class you want to view information about.
- If needed, select the assessment you want from the drop-down list, and then click **View Class Report**.
- You can see the percentage for the class scores as a whole and for each question. Questions with a low score (below 75%) are in red; you may want to discuss these questions with the class. Each incorrect question is also listed with the correct response and any learning tips for the question. When you are finished reviewing the report, click the class link at the top.
- To view an individual student's test results, click the number of Test Attempts.
- To view percentage scores, click **View Report**. To review the test answer sheet, click **Review**.
- As you review the report, check any questions that are marked with a yellow Warning and fix any questions marked with a red Error. If the system scored an answer incorrectly, click the answer the student chose, and then click **Update**.
