

# KAWAI CN43-LDS QUICK START GUIDE

Please read the Owner's Manual for the other features that are not described in this Quick Start Guide. The page numbers indicated in this Quick Start Guide denote those of the standard Owner's Manual.

## NORMAL USE

1. Turn power on and verify language selection with the **VALUE UP** or **VALUE DOWN** buttons next to the display.
2. Select piano or organ voice using one of the ten **SOUND SELECT** buttons.
3. Set volume with the **MASTER VOLUME** control.

## PRELUDE MUSIC

The CN43-LDS offers three separate types of Prelude Music—Hymn Prelude, Christmas Prelude and Children's Prelude.

1. To activate Prelude Music, press the **HYMNS** and **SONGS** buttons simultaneously. The LED lights for both buttons will light. When you release the buttons, a randomly selected hymn from the Hymn Prelude list will begin to play using the Soft Strings sound. To change this sound, press any **SOUND SELECT** button. When the initial hymn finishes, the next hymn in the preset sequence will play.
2. To select the Christmas Prelude or Children's Prelude, press and **hold down** the **HYMNS** and **SONGS** buttons simultaneously while using the **MENU UP** or **MENU DOWN** buttons to select the desired prelude type. When you release the buttons, a randomly selected song from the selected prelude type will begin to play. The default sound for Christmas Prelude will be Soft Strings. The default sound for Children's Prelude will be Studio Grand.
3. Once a new prelude type is selected, that new type will remain the default prelude until a different prelude type is selected.
4. Press either the **HYMNS** or **SONGS** button again to stop the Prelude Music at any time. When stopped, both LED button lights will go off. To stop in the middle of a verse, you may consider lowering the volume control gradually before stopping the prelude music for a more natural transition.

## HYMN PLAYER

1. To turn HYMN PLAYER function on, select either hymns or children's songs using the **HYMNS** or **SONGS** buttons at the left side of the panel. The LED indicator will light when a selection is made and the HYMN PLAYER function is enabled.

"The HYMN PLAYER function is turned off by pressing either the enabled (LED lit) **HYMNS** or **SONGS** button."

## 2. SELECTING A HYMN OR SONG

You can choose a hymn or song that corresponds to those found in the LDS Hymn Book or Children's Song Book by one of two methods:

- a. Search alphabetical listing of hymns or songs by using the **VALUE UP** or **VALUE DOWN** buttons next to display.
- b. Select by hymn or song number using the **SOUND SELECT** buttons. Each SOUND button has a number printed below it that is used for entering a hymn or song number. To select, hold down the **HYMNS** or **SONGS** button with the left hand and enter the desired number using the **SOUND SELECT** buttons (and referring to the numbers shown beneath them). For example, to select hymn number 174, hold down the **HYMNS** button, press 1 (the **PIANO 1** button), the 7 (**ORGAN 5** button) and then 4 (the **ORGAN 2** button).

## 3. PLAYING METHODS

Once a hymn or song is selected, it can be played in one of three ways:

- a. **METER PLAY METHOD** (default setting): Simply tap any key with evenly spaced beats to control the tempo of the chosen hymn or song. Continue tapping a key to continue to the next verse.
- b. **AUTO PLAY** – Press the **PLAY/STOP** button and the selected hymn or song will play automatically. To play another verse of the hymn or song, press the **PLAY/STOP** button again after the button LED light goes off. To start a new verse immediately, press the **PLAY/STOP** button twice.
- c. **RHYTHM PLAY METHOD** – Please see the 'Skillful' type Concert Magic explanation in the standard CN43 Owner's Manual for details. (Page 22)

## 4. INTRO Feature

Each hymn and song is equipped with its own introduction, or INTRO. To start a hymn or song with an introduction, press the **LOOP** button (PLAY INTRO is printed below it) found in the recording button area. When the INTRO is finished, tapping a key or pressing the **PLAY/STOP** button is used to start the hymn or song.

## LESSON FEATURE

Press the **MENU UP** and **MENU DOWN** buttons simultaneously. The display will indicate that you have entered the Lesson Mode. Refer to page 28 in the Owner's Manual for the use of this feature. Press both **MENU** buttons simultaneously to exit Lesson Mode.

## PEDALS

The CN43-LDS piano has three pedals—just like a grand piano. They are Sustain, Sostenuto and Soft.

### Sustain pedal

Sustains the sound after hands are lifted from the keyboard. The sustain pedal is capable of responding to half pedaling.

### Sostenuto pedal

Depressing this pedal after playing the keyboard and before releasing the keys sustains the sound of only the keys just played. Any keys that are pressed after the Sostenuto pedal is depressed will not be sustained after the keys are released.

### Soft pedal

Depressing this pedal softens the sound and reduces its volume. When the rotary effect is active, the soft pedal is used to change the speed of the rotor between slow and fast.

## HEADPHONE JACKS

There are two headphone jacks located on the left underside of the piano. Up to two pairs of headphones can be connected simultaneously.

## USB PORT

This USB port allows USB memory or USB floppy disk drive devices to be connected to the CN43-LDS piano. This provides a convenient way to record or play back Standard MIDI (SMF), WAV or MP3 song files. It also allows access to the USB recorder that lets you record up to 16 independent MIDI tracks.
