

White

Isaiah 1:18

This life gets a little bit messy
It starts on the day we're born
We fall down and our hands get dirty
And we try to clean it up alone

We think a little soap and water
Is really all it takes
But he gave us something stronger
To wash our sins away

Chorus:

They can be white
They can be white
Bright as the day
After the night
He'll take all the stains away
We could let go
We could move on
Pick ourselves up
Dust ourselves off
Though our sins be red
Instead
They can be white

Sometimes we're caught in the landslide
Stumbling through it all
But no matter how big the mess is
His grace is like a waterfall

A little change of heart is
Really all we need
And even if our sins are scarlet
He can wash them clean

Chorus

Bridge:

They can be, they can be white
